SUMMARY

I'm a Frontend Web and Mobile Developer with around 2 years of experience building responsive, user-focused applications using technologies like React.js, Next.js, Vue.js, Nuxt.js, React Native, Flutter, and Laravel. I thrive in fast-paced environments where I can collaborate across teams to turn ideas into smooth, performant digital experiences. I'm known for staying calm under pressure, meeting tight deadlines, and communicating clearly with both technical and non-technical stakeholders. With a strong attention to detail and a fast learning curve, I'm always exploring new tools and frameworks to stay ahead in the ever-evolving tech landscape. I hold a Bachelor's degree in Computer Science from Universitas Pembangunan Nasional Veteran Jakarta.

EXPERIENCE

Front End Developer - Fulltime

HW Group

October 2024 - Present, Tangerang

- Developed a company profile application using Nuxt.js, translating designs into code to create a fully responsive and user-friendly website.
- Built and maintained 3 internal applications or CMS platforms using Vue JS and Nuxt JS with key features such as questionnaires, inventory management, data reporting, analytics dashboards for outlet quality assessment, and role management.
- Created reusable and modular components to streamline development processes and improve consistency across projects.
- Implemented Pinia as a state management solution to efficiently manage application states, ensuring better performance and maintainability.

Front End Website Developer - Internship

Living Lab Ventures

August 2022 - September 2024, Tangerang

- Developed 2 applications: a Restaurant Ordering System using React JS and an E-commerce Application.
- Maintained, improved, and optimized performance, while ensuring the right tech stack was used to align with business goals.
- Managed specific features of modules, including the dashboard, reports, settings, chat, payment, and others.

Mobile Developer - Internship

PT Surya Citra Media

February 2023 - July 2023, Jakarta

- Developed and refactored the application using Flutter, resulting in a 20% reduction in development time due to optimized component reuse and better performance.
- Defined and documented a detailed mobile app revamp for the internal company including Information Architecture, Feature List, Tech Stack, Asset, and Existing Projects.
- Designed Design System and new Design User Interfaces for revamp project using Figma.

Mobile Developer - Internship

OneSmile

May 2022 - August 2022, Jakarta

- Developed and implemented new features, functionality, and capabilities in the Mobile App using Flutter.
- Created a social media feature for the BSD community within the OneSmile app.
- Oversaw the entire development lifecycle of mobile applications from concept to deployment, ensuring high-quality deliverables and effective collaboration within the team.
- Utilized components effectively and implemented clean architecture principles to enhance code maintainability and scalability in mobile app development.

Mobile Developer - Internship

Tribesocial

January 2022 - March 2022, Jakarta

- Created new features, functionality, and capabilities on the Mobile App using React Native.
- Maintained the app by performing regular updates and bug fixes to ensure its stability and performance.
- Collaborated with cross-functional teams, including designers and backend developers, to ensure cohesive development and integration of features, optimizing both user experience and application functionality.

PROJECT

Geoparks - Contract

Geoparks Network Indonesia · geoparksnetwork.id/

- Working as a Frontend Developer, utilizing the Laravel framework to build and enhance dynamic and responsive web applications.
- Developed features of the module include News, Articles, Ticket Ordering, Ticket Payment, and more.
- Translated designs and wireframes into high-quality, functional code, ensuring accurate implementation of visual and interactive elements.

Sijudul

Personal Project

- Led a team of 3 members to maintain the project, overseeing ongoing development, addressing issues, and ensuring timely updates and enhancements.
- Developed the mobile side of projects using Flutter to build and optimize cross-platform apps. Focused on responsive performance, effective use of components, and clean architecture for seamless integration with backend services.
- Designed mobile app interfaces using Figma to create intuitive, user-friendly layouts.

EDUCATION

Computer Science

Universitas Pembangunan Nasional Veteran Jakarta • Jakarta, Indonesia • 2024

INVOLVEMENT

Head Of Web Developer Mentor

Universitas Pembangunan Nasional Veteran Jakarta • KSM Multimedia • February 2022 - January 2023

- Mentored over 40 mentees in expanding their front-end development skill set.
- Led a mentorship team of 2 members, providing them with effective teaching strategies
- Be responsible for the learning outcomes of the mentee: Ensure mentees achieve their goals by creating personalized learning plans and providing targeted guidance.

SKILLS

Javascript, Typescript, PHP, React, Next Js, Vue Js, Nuxt Js, Pinia, Redux, Flutter, BloC, Laravel, Bootstrap, Tailwind CSS, GSAP, Sass, Figma
